

We Are United for a Better Auburn Medical Center

Through our bargaining surveys and proposal votes we made it clear we need big changes at MultiCare Auburn. Last Thursday we made it to the bargaining table to share our first proposals with management. We are excited to start negotiations and our bargaining team has been working tirelessly to build thoughtful proposals that reflect our values and priorities to help recruit and retain workers, create standards that allow us to provide the best care possible to our patients, maximize caregiver safety, and help build an environment of equity and belonging for all workers.

Our Bargaining Priorities

Our top priorities:

- ✓ Fair pay – Competitive wages and premiums
- ✓ Staffing that keeps our patients safe
- ✓ Quality affordable health care
- ✓ Respect for the important work we do
- ✓ Workplace safety

With these priorities in mind we shared 15 proposals at the bargaining table! This is a huge start to bargaining and we are excited to continue this process and fight for what we need. Our next bargaining date will be Monday, October 14, and we are looking forward to talking about wages and economic proposals.

“Through determination and strength, we came ready to fight for our coworkers. It’s going to be so important for us all to stand together in unity to win everything we need at the bargaining table. This is just the beginning. We have a lot of work to do.” **–Joel Le Bon, Nutrition Assistant**

✦ Bargaining Team: ✦
